6 LESSONS

PHASE 4 · CLOUD, DEVSECOPS & CRYPTANALYSIS

Denial-of-Service & Defense Evasion

DoS/DDoS mechanics, amplification and botnets, IDS/firewall evasion, honeypots, anonymization and anti-forensics – the 'noise' discipline of attack craft.

01

DoS & DDoS: Volumetric, Protocol, Application

INTERMEDIATE

CONCEPT

45 min →

Every flavor of knocking a service down – and the layered defenses (C...

02

Botnets & Amplification Attacks

INTERMEDIATE

CONCEPT

40 min →

How 100k hacked webcams become a 1Tbps stream: botnet building blocks...

03

IDS/IPS & Firewall Evasion

ADVANCED

LAB

50 min →
